

EF-21R

DATASHEET / BROCHURE

Experience immersive viewing at home or on the go for up to 10 years*. With Epson's 3LCD technology images are clear, sharp and crisp. Enjoy smart solutions with Google TV™ and Bluetooth speakers.

Part of the EpiqVision Mini Laser range, this projector's sleek and sophisticated styling could easily distract you from its impressive range of features. With smart solutions, 2x 5W speakers with Bluetooth connectivity and easy setup, it's the perfect solution for instant entertainment at home or on the go. Images appear more bright and vivid thanks to Epson's 3LCD technology.

Stylish, mini laser projector

This compact projector comes in beige rose and can be projected in any direction - on a wall, ceiling or floor. The simple usability, setup and portability means you can enjoy entertainment on the go.

Bigger is better

Create the big screen experience wherever you want with an impressive display of up to 150 inches. With Epson's equally high White and Colour Light Output images are clear, sharp and content is brought to life.

Smart home entertainment

Everything you stream. All on one screen. Access 400,000+* movies and TV episodes, all in one place. Google TV™ brings your favourite content from across your apps and subscriptions and organises them just for you. Ask Google Assistant to find movies, stream apps, play music and control your projector - all with your voice*. Easily cast movies, shows, photos, and more from your phone or tablet, right to your projector with Google Cast*. The built-in 5W Bluetooth speakers can be used with or without a visual display.

Long-lasting solution

The long-lasting laser light source will provide lower energy consumption, and you'll be able to enjoy home entertainment for up to 10 years*.

High-quality, sharp images

This powerful yet affordable mini laser projector delivers exceptionally bright yet colourful images with clear details. It's 5,000,000:1 contrast ratio also produces clearly defined shadows and deep blacks. Epson's 3LCD technology means it's projectors have up to three times brighter colours than comparable 1-chip DLP projectors*.

Simple set up - plug and play

Included technologies such as automatic focus, keystone correction, obstacle avoidance and screen fit mean you enjoy instant entertainment at home or on the go. Simply power on the projector and let it find the best suitable screen size to fit your surroundings.
