INFORMATION

24" DeepContrast PCAP+ 10-point touchscreen monitor with robust metal housing for demanding environments

The ProLite T2438MSC-B2 is a responsive and reliable 24" Full HD touchscreen monitor designed for both demanding environments and everyday commercial use. The IPS panel delivers clear, vibrant images with wide viewing angles, ensuring excellent visibility at workstations, service counters or customer-facing installations.

DeepContrast PCAP+ (Optical Bonding) 10-point touch technology provides smooth and accurate interaction for intuitive daily use. The edge-to-edge glass is scratch-resistant (7H) and features an anti-fingerprint coating, helping the screen stay clean and professional-looking even with frequent touch. Protection against humidity and dripping water (IPX1) adds extra confidence in busy workplaces.

A robust metal housing ensures long-term durability, while the adjustable angle stand and integrated cable management create a tidy, ergonomic setup. With built-in speakers and flexible connectivity including HDMI, DisplayPort and a USB 3.2 hub, this monitor adapts easily to different installations. Supporting landscape, portrait and face-up orientations, it is a versatile solution for retail, POS, interactive signage and professional workspaces in demanding environments.

Vivid colors and wide viewing angles

Ensure perfect visibility from any position - The IPS panel delivers vivid, consistent colors and wide viewing angles, ideal for dynamic retail environments and busy commercial spaces.

Tough on scratches, clean to the touch

Built for everyday interaction, the 7H scratch resistant front glass stays tough and clear, while the anti fingerprint coating keeps it clean and professional. With front side protection against humidity and dripping water, it's made to handle real world use with confidence.

Built tough, lasts longer & performs anywhere

With a robust metal housing and hardened front glass, this monitor goes beyond the ordinary, outlasting standard plastic housing monitors and performing reliably in demanding environments.

Responsive interaction and good protection

Featuring intuitive PCAP touch technology with DeepContrast PCAP+, the screen offers smooth and responsive interaction with reduced glare, while remaining protected from moisture and condensation. Perfect for high-use environments.
