

DISPLAY STAND

This is how Hybrid works. Forum™ has a Free Standing or Floor-to-Wall mounted Display Stand with an included Chief Fusion display mount that can be paired with Forum Angle, Arc or Rectangle shaped tables to define your space for hybrid collaboration.

FEATURES

- Free standing or floor-to-wall mounted with an included Chief Fusion Display Mount
- 4RU of vertical equipment mounting with access via doors on the front and panels on the back (rear panels on free-standing models only)
- Included Lever Lock™ plate with optional Lever Lock kit for more small device mounting
- Includes display shroud (multiple sizes available for single displays ranging from 42" to 105" and dual displays ranging from 50" to 75")
- Stand and included display shroud wrapped in acoustic felt material to limit audio reverberation for the highest quality audio experience for local and remote participants
- The slim base on the free-standing and floor-to-wall takes up minimal floor space and can accept Wiremold OFR and Connectrac raceways underneath with the 1" leveling foot

ADA-COMPLIANT WALL TILES

The Forum™ ADA-Compliant Wall Tiles from Middle Atlantic are designed for seamless integration with the Forum Floor-to-Wall Display Stand. When installed, these tiles provide a person with sufficient time to detect the display stand with a cane ahead of coming in direct body contact. This thoughtful accessory is also retrofittable, accommodating existing installations effortlessly.

FEATURES

- 24"W x 24"H x 8"D acoustic PET felt wall tiles
- Ideal for anywhere the Forum Floor-to-Wall Display Stand goes, including conference rooms, offices, and educational facilities
- Retrofittable to accommodate existing installations
- Improves noise and reverberation levels
- Custom color capabilities
- Packed flat for easy transportability
- Assembly required
- Minimalistic cleat hardware allows for wall-mounted installation
- Sold in pairs

EIA/TIA COMPLIANT

ISO 9001 and ISO 14001

Free-Standing Display Stand Acoustic Performance

Acoustic testing was performed by Riverbank Acoustical Laboratories on the Forum™ Collaboration Suite Free-Standing Display Stand (Part Number: FM-DS-6675FS-JD8W), with the stand mounting performed according to ASTM E795-23 and ASTM C423-23. **The Display Stand in this test provided an NRC value of 0.40 in our test.**

Please note that results may vary based on the installation and configuration of the Display Stand.

The ASTM C423-23 test report can be obtained upon request by contacting av.middleatlantic.techsupport@legrand.com.

Sound Absorption Report

Forum Collaboration Suite Display Stand

What is NRC?

Noise Reduction Coefficient (NRC) is the average of how absorptive a material is at various frequencies within the human speech frequency range. Two materials with the same rating may not perform the same in application. Typically, an NRC of 0 indicates perfect reflection and an NRC of 1 is designated as perfect absorption.

Example: If you have a ceiling with an NRC of 0.70, this means 70% of sound is absorbed into the ceiling. The other 30% is dissipated into the space. The higher the NRC, the less echo (reverberation) in the space.

ADA-COMPLIANT WALL TILES

SPECIFICATIONS

The Forum ADA-Compliant Wall Tiles Middle Atlantic Products model # _____ (refer to chart). The Forum ADA-Compliant Panel Wall Tiles shall include two 24"W x 24"H x 8"D PET felt wall tiles. Material is 100% polyester containing up to 50% of recycled plastic bottles (PET felt) and is moisture resistant.

For specifications on the acoustic felt made from polyethylene terephthalate (PET) please visit www.focalpointlights.com/reference
