

DCNM-CB250 System installation cable 250m

DICENTIS

The System installation cable is used for creating custom-length system installation cables.

It can be used to make cables with a maximum length of 100 m (328.084 ft) by terminating with the installation cable connectors (DCNM-CBCON) using the system cable toolkit (DCNM-CBTK).

Functions

General

- Provides network communication and power transport up to 140 W.
- Enables loop-through cabling.
- Enables redundant cabling.

Installation/configuration notes

This is a professional product that should be installed, used and maintained by trained professionals only.

Parts included

Quantity	Component
1	DCNM-CB250 System installation cable 250m

- ▶ Creation of custom-length system installation cables
- ▶ Connects the participant devices in a loop-through configuration
- ▶ Enables redundant cable connections

Technical specifications

Mechanical

Wire diameter (mm)	6.40 mm
Material	TPV (71±3 Shore A)
Color (RAL)	RAL 9004 Signal black
Bend radius (mm)	> 26 mm

Ordering information

DCNM-CB250 System installation cable 250m

250 m (820 feet) cable for creating custom-length system installation cables. To be used with DCNM-CBCON and DCNM-CBTK.

Order number **DCNM-CB250 | F.01U.416.425**

Accessories

DCNM-CBCON Connector for system, installation cable

Connectors for solid core and stranded wire DICENTIS cable. The system cable toolkit (DCNM-CBTK) is used to connect the connectors.

Order number **DCNM-CBCON | F.01U.300.133**
